

Introducing an
**innovative workforce
management system**

Save time, money and hassle with
ProduQtive, an innovative workforce
management solution that is functionally
rich, performs exceptionally well and
is easy to use.

Increase engagement
and shrink spend with
ProduQtive

produQtive

Flexible workforce management, tailored to your requirements

Developed to support organisations in the Health and Care sectors; for all staffing groups; all placement types and all engagement types:

- All Hospitals (NHS Acute, Mental health, Private)
- All GP practices, GP Federations or GP led services (OOH)
- All Community based services
- Local Authority (social care)
- Care and Nursing homes
- Providers of Domiciliary Care
- Providers of Contingent workforce (Agencies, Master Vendors and RPOs)

ProduOtive gives managers and practitioners their time back. Our internal bank, regional – and collaborative bank module is designed to save money, whilst our vendor management solution gives you total control and transparency over agency spend, quality and performance.

The fully customisable solution works around your operations; supports your strategy and with our open API, it interfaces with any other legacy applications or data source.

Some of the features available on our mobile friendly application:

- Permission controlled portal for all managers, employees, contractors and freelancers
- Creation of compliant rotas for medical staff in training (Junior Doctor T&Cs)
- Fulfilment of created rotas
- Convert filled rotas into active rosters
- Complete e-Roster management for all staff groups (plan, create, fill)
- Active and inclusive roster management: absenteeism, swaps, cancellation, over time etc)
- Case Management for community practitioners and domiciliary care providers
- Availability management (bank and agency users)
- On-Call rota Management
- Expense Manager
- Leave Manager
- Bank, Regional Bank or Collaborative Bank module
- Vendor Management for Employers
- Direct Engagement for qualifying occupations
- Master Vendor and RPO module for Agencies
- Vacancy requisition and distribution, incl. Job board interface
- Time and Attendance Management
- Payroll Management -incl. Payroll as a Service for non-NHS
- Finance and Billing- incl. Consolidated invoicing, Itemised Billing, Self-billing, disbursements and Remittance advice
- Real time and sophisticated reporting

Why us?

We offer great value at zero risk

- **Experience and Track record:** The founder has a deep understanding of the challenges the healthcare sector face and has, over the past 15 years, developed solutions and services that are well known and widely used in large Acute Trusts, Community and mental health Trusts across the United Kingdom.
- **Outstanding customer service:** We can't all be doctors, nurses or other healthcare practitioners. Our role is to support the sector in whatever capacity we can. Innovate, fix, create, capture, supply...all with a sense of urgency, accountability and responsibility.
- **Zero hassle implementation programme:** ProduQtive does not charge for implementation, training and support. To achieve this, we made sure that it's quick and easy to implement and use.
- **High adoption rates:** These are achieved by linking many features, currently provided by different providers. Our single platform addresses very specific needs for the individual user whilst giving managers, executives and owners all the tools they need to manage complex and highly regulated organisations.
- **State of the art technology:** We are specialists in our field, passionate and knowledgeable and our clients get much more than just a log-in to a system.
- **We are neutral:** We are privately owned and not a staffing agency nor a managed service provider. Our role is to remove transactional cost from the supply chain and give suppliers of contingent staff every opportunity to develop good relationships and deliver outstanding value...which you can monitor.
- **We are a Low-Cost High-Value provider:** We are not sub-standard, not basic and we offer the same and, in many instances, more value than the top 5 providers of similar applications.

The quick and simple steps to becoming a ProduQtive user

1. Register your organisation online at www.produqtive.com and we will configure the system to match your requirements and develop a quote.
2. After accepting our T&Cs and validating your email, you can access ProduQtive and upload your data. Our online user manual and guidance will ensure you have clear instructions.
3. Set up your organisation structures with sub-organisations - locations, divisions and departments. Add cost centres and cost codes as used by your organisation.
4. Configure your settings to specify roles, grades/experience and specialism/skills your organisation supports.
5. Add your employees and/or candidates, assigning their permissions.
6. Now you're ready to start creating rota's, rosters, ad-hoc shifts or vacant jobs.
